---

Hi Chris,

Marty mentioned (and I believe you and I spoke about) that you and he had spoken about using some of the gilbert and mosely documents to establish MCLs as the target for groundwater quality as early as 1992. He has asked me to find some documents to this regard on the KDHE web page and I am coming up empty.

Can you provide me with any guidance as to where to find this type of information? I'd appreciate it.

Thanks,

Mike Stephenson
